ECN4169 Development Economics

Class meets:	Tue, Thu 10:00 till 11:15
Venue:	VB 508
Course credits:	3 Credits/5 ECTS Credits
Instructor:	Eldar Madumarov, PhD
Office:	#209/VB
Phone:	+7 (727) 2704271 x 3071
Email:	madumarov@kimep.kz
Office Hours:	Mon, Wed, Fri 11:00-12:00 or by appointment

Course description

The module aims to introduce students to the problems and features of developing economies, and it is based on the modern analytical quantitative approach adopted by the main international development institutions, with an emphasis on the most recent advances in the field. The course focuses on a set of issues which comprises, among other topics, theoretical foundations of the process of economic development, income inequality and poverty, agricultural transformation, international trade and development strategy.

Learning objectives

Understanding of the main principles and concepts of the development process
Grasp the essential domestic problems and policies
Comprehension of the essential international problems and policies

Intended learning outcomes

Upon the completion of the course students will be able to:

1. Define the role of institutions in the process of economic development,
2. Characterize and classify the less developed countries in line with different criteria,
3. Get to know the relevant details of the classic and modern theories of growth and development,
4. Acquire the knowledge on the link(s) between poverty, inequality and development,
5. Know the relevant details about the linkage between population growth and economic development,
6. State the rationale for rural-urban migration,
7. Determine the roles of market, state, and civil society in the process of economic transformation,
8. Explain the role of international trade in the development process,
9. Use the balance of payments mechanics in explaining the problems of indebtedness,
10. Characterize the role of foreign finance, investment and aid in the process of economic development,
11. Determine the role of finance and fiscal policy in the development process.

Relationship of course and program

Prerequisites: 90 credit hours.

The given course is deemed as a course building upon and encompassing an array of economic disciplines including ECN3081 Micro- and ECN3082 Macroeconomics, ECN4122 Labor Economics and ECN4112 International Trade, Economic History and History of Economic Thought, etc.

Teaching and learning philosophy and methodology

The instructor's teaching philosophy.

Personal Objectives: The course's instructor will be assisting students, coordinating their learning process and assisting students in mastering the stuff of the course.

Teaching and learning approaches: In order to attain the stated learning objectives, the instructor will use an array of suited teaching and assessment techniques.

Course teaching and learning methodology:

The instructor's teaching objectives will be achieved through a myriad of teaching techniques that include—but are not limited to—introductory and comprehensive lectures, interactive tutorial sessions, learning in-class experiments. Furthermore, the course's assessment will take different forms. The students' performance will be evaluated through home assignments, quizzes, in-class exercises along with tests and examinations.

Course learning activities

In-class lectures will be combined with interactive tutorial sessions. These activities are supposed to be complemented by independent work of students. The course requires that students work independently at least six hours a week. Students are advised to make the most of instructional materials and lecture slides.

Your regular attendance of classes is to be complemented by your independent work equaling roughly to 5-6 hours per week (75-90 hours per semester). Hereby this time budget is to be allocated between pre-reading, post-reading and preparation for assessment activities.

Assessment scheme

During this semester the students taking the course are expected to be tested through five home assignments, two quizzes, one midterm and one final exam. These combined will determine the final grade. The breakdown is as follows:

Attendance & Participation	20%
Midterm Exam 1	20%
Midterm Exam 2	20%
Final Exam	40%
Total	100%

Midterm Exam 1 will be based on the stuff covered primarily during the first half of the semester (weeks 1-5) and focus on the intended learning outcomes 1-4.

Midterm Exam 2 will be based on the stuff covered primarily during the second half of the semester (weeks 6-11) and focus on the intended learning outcomes 5-7.

Final Exam will be based on the stuff covered throughout the semester (weeks 3-5 and 9-15) and focus on the intended learning outcomes 3-11.

Only students who have at least half of the assignable points for the entire course prior to the final exam (i.e. 30 points out of 60 pre-FE points) will be allowed to sit the final exam.

Grading scale

A+	90—100	C+	67—69
A	85—89	C	63—66
A-	80—84	C-	60—62
B+	77—79	D+	57—59
B	73—76	D	53—56
B-	70—72	D-	50—52
		F	<50

Course policies and instructor's expectations of students

- Students are supposed to come to class prepared. This implies that you will have read the text and solved the assigned exercises.
- Regular attendance will be monitored, and consistent attendance will yield positive results. However, inadequate attendance will adversely affect the student's course performance. Moreover, a student who misses over 20 percent of classes is at risk of failing the course.

- There will be no opportunities for rescheduling assessment sessions. It is imperative not to absent yourself on examination and quiz days. Failure to provide valid justification for absences will result in point deductions. Furthermore, seeking unmerited extra points is discouraged and may lead to penalties.
- Plagiarism along with cheating will be penalized appropriately. Please check the Catalog for details. Unless explicitly instructed, the use AI-powered tools is prohibited during assessment sessions.

Instructional resources

Required textbook:

Todaro M. and Smith S., *Economic Development*, tenth edition, 2009, Pearson Addison-Wesley.
